

GROUT PUMP

- Body machined from light weight nylon (20 kg).
- Air consumption 0.9m³/min.
- Stall pressure 400 psi.
- Separate Motor/Pump housing for easier low cost maintenance.
- Less down time.

Volume.....	23 Ltrs/min (Grout)
Volume.....	53 Ltrs/min (Water)
Working Air Pressure.....	700 Kpa (Max)
Outlet pressure (@700Kpa.....	30 Bar
Air Consumption (400Kpa with water)....	0.9 m3/min
Air Inlet	3/8"
Fluid Discharge.....	3/4"
Dimensions.....	220 x 330 x 1075h
Weight	20 kgs

**Proudly
Made In
Australia**

**Made for
underground use**
